

The overall objectives of the waste management assessment are summarised below:

- (i) to assess the activities involved for the proposed and determine the type, nature and estimated volumes of waste to be generated;
- (ii) to identify any potential environmental impacts from the generation of waste at the site;
- (iii) to recommend appropriate waste handling and disposal measures / routings in accordance with the current legislative and administrative requirements;
- (iv) to categorise waste material where practicable (inert material / waste fractions) for disposal considerations i.e. public filling areas / landfill.
